# QuickSet Ink Pre-Setting Return-On-Investment

## # of Print Jobs Per Month

## Average Yearly Paper Waste Savings

50 Print Jobs per Month	\$35,000.00 - \$52,000.00
100 Print Jobs per Month	\$70,000.00 - \$105,000.00
150 Print Jobs per Month	\$105,000.00 - \$150,000.00

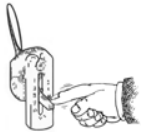

The very first year using QuickSet Ink Pre-Setting, the average printer increases their bottom line by \$50,000—above and beyond the return-on-investment.

### QuickSet Levers vs. Remote Consoles

Did you know that putting QuickSet levers onto a newspaper press has proven to be as effective as a remote console?

Extensive data has shown that both QuickSet levers and remote consoles reduce make-ready waste by about 33%. Under identical conditions, shops with QuickSet levers exhibit about the same waste as shops with remote consoles.

QuickSet levers are 1/50th the cost of a remote console, and provide an ROI in less than six months.

"The time to order is NOW — our price is the best in the industry."
